‘ALYA HUMAIRA BINTI ABDUL KADIR

Cybersecurity Analyst / SOC Analyst (Entry-Level)

Phone Number: (+60)12 850 4418
Email : halya8928@gmail.com
LinkedIn : https://www.linkedin.com/in/alyira/
Github : https://github.com/halya-maker
Address : Putrajaya, Malaysia

Professional Summary

Computer Networks graduate with hands-on SOC experience in SIEM monitoring, log analysis, and incident response. Use Splunk to investigate alerts, detect threats, and support security operations. Apply network security knowledge to identify suspicious activity and contribute as a SOC Analyst.

Education

Bachelor of Computer Science (Hons.) Computer Networks **Oct 2022 – Mar 2026**
Universiti Teknologi Mara (UiTM) Jasin, Melaka *CGPA: 3.32*

Matriculation in Physical Science **Aug 2021 – May 2022**
Kolej Matrikulasi Selangor CGPA: 3.79

Work History

Security Analyst Intern (MSS) **Sept 2025 – Mar 2026**
Nexagate Sdn Bhd, Kuala Lumpur

- Monitored and analysed 50+ daily security alerts using Splunk SIEM, identifying potential threats and anomalies
- Analysed and correlated security events in Splunk SIEM to detect anomalies and potential threats
- Supported incident investigation and response by analysing alerts and escalating confirmed threats
- Managed and updated security tickets in daily SOC operations, ensuring timely tracking and resolution
- Deployed and verified endpoint security agents across multiple endpoints to maintain visibility
- Generated security reports and contributed to MWSS monthly reports, later adopted as a standardized reporting template

Projects

Splunk SIEM Analysis – APT Threat Hunting (PowerShell Empire)
Dec 2025 – Jan 2026

- Conducted threat hunting using Splunk SIEM to detect fileless PowerShell-based APT activity
- Analysed Windows Security Logs and Sysmon telemetry to identify encoded PowerShell execution, suspicious parent-child processes, and abuse of trusted binaries
- Developed 5+ SPL queries to detect multi-stage attack techniques, including WMI-based execution and outbound command-and-control (C2) communication
- Correlated logs to uncover stealth attack patterns and persistence mechanisms
- Mapped findings to the MITRE ATT&CK framework and proposed actionable mitigation strategies

DNS Performance Benchmarking Toolkit (Final Year Project)
Oct 2024 – Jul 2025

- Developed a DNS toolkit to benchmark resolver performance across 3 major ISPs (Maxis, CelcomDigi & UMobile)
- Tested performance using 6 high-traffic domains under real-world conditions

- Collected and analysed DNS performance data across multiple test iterations
- Measured metrics including latency, jitter, uptime, throughput (QPS), and query success rate
- Evaluated DNS security features such as DNSSEC, DoH, and DoT
- Automated testing using Python, dnsperf, and SmokePing
- Analysed and visualized data using Pandas and Matplotlib to identify performance trends and ISP differences

Skills

- **Cybersecurity & SOC Tools:** Splunk (SIEM), ESET (Endpoint Security), Akamai (Web Security), Imperva (WAF), Nexa Security Intelligence (NSI)
- **Security Concepts:** SIEM Monitoring, Incident Response, Threat Detection, Log Analysis, MITRE ATT&CK, Endpoint Security, Web Application Security, Phishing Awareness
- **Networking:** TCP/IP, DNS, DHCP, VLAN, WAN, Routing & Switching, Network Protocols
- **Programming:** Python, SQL, Java, C++
- **Systems**: Linux, VMware, VirtualBox
- **Soft Skills:** Analytical Thinking, Attention to Detail, Problem Solving, Communication

Certifications

CCNAv7: Introduction to Networks – Cisco Network Academy (2024)

CCNAv7: Switching, Routing, and Wireless Essentials – Cisco Network Academy (2024)

CCNAv7: Enterprise Networking, Security, and Automation – Cisco Network Academy (2025)

Google Cybersecurity Professional Certificate – Coursera (Ongoing)

- Completed Course 1: Foundations of Cybersecurity
- Currently progressing through Course 2

TryHackMe (Ongoing)

- Completed Pre Security Learning Path; Currently progressing in Cybersecurity path

Languages

- **Malay:** Native Proficiency
- **English:** Full Professional Proficiency
